

How To Play Jumpman!

Your Objective

- Choose between four characters in the starting screen by selecting a face
- Once the game starts your goal is to jump onto platforms and make it to the gold platform
- The game generates infinite levels, so try and reach the highest level possible!
- Every fifth level you will be challenged with a special level in which you must dodge falling blocks for a certain time limit

Controls

- Use your mouse and click on a face to start the game
- Control your jumpman using the arrow keys on your computer
- Our game features a wrap affect, meaning you will appear on the opposite side of the screen if you exceed the boundaries
- Use arrow keys to select retry, or quit options in the final screen
